SHADOW OAKS CONDOMINIUM ASSOCIATION
ARCHITECTURAL STANDARDS

Living in a planned community such as Shadow Oaks offers many privileges as well as imposing certain responsibilities. Shadow Oaks Homeowners Association (hereafter referred to as the Association) has been developed for the mutual benefit of all members. In order to preserve the value, desirability, attractiveness, and architectural integrity of the Shadow Oaks Community, the Covenants, Conditions and Restrictions (CC&Rs) have authorized the formation of the Architectural Committee.

The Board appoints the Architectural Committee to help assure a continuity in design and help preserve and improve the appearance of Shadow Oaks.

Attached please find the general architectural guidelines for your community. It is to your benefit that you take the time to read this information. The Architectural Standards and Rules and Regulations fine tune the provisions of the CC&Rs and are promulgated pursuant to authority contained in the CC&Rs. Please note that although these guidelines support the CC&Rs, they do not cover the entirety of the document. The CC&Rs should also be read carefully.

As set forth in the CC&Rs of the Association (Article IV, Section 4.1) the Board of Directors delegates the duties and responsibilities of full authority of architectural and landscape control to an Architectural Committee. This committee is vested with the power to review and approve all improvements to residential units within the Shadow Oaks Community.

Such improvements include, without limitation, modification and alterations to residential units, signs, screens or patios. No modifications to the exterior building structure or fencing will be permitted. Upon an approved request by an owner, after completion of the work, the Architectural Committee or its duly appointed representative may inspect any improvements for which plans were required.

Prior to commitment of any addition, alteration or construction work of any type, you must first file an application to the Shadow Oaks Architectural Committee. Failure to obtain the written approval from the Architectural Committee will constitute a violation of the CC&Rs and shall require modification or removal of unauthorized work or improvements at your expense. In addition, a building permit may be required by the County of Ventura or other governmental agencies prior to the commencement of any work. The Architectural Committee does not assume any responsibility for your failure to obtain such permits. Also, obtaining such permits does not waive the obligation to obtain approval from the Shadow Oaks Architectural Committee.

The following pages contain additional Architectural Standards including an architectural request form. Please use this form for any submittal to the Architectural Committee. Thank you in advance for your cooperation.

PURPOSE

In order to maintain the architectural character of the community, it is necessary to provide more exacting guidelines than presented in the CC&Rs and Bylaws of the Association. These guidelines have been established to protect your investment and keep the community of Shadow Oaks attractive to all.

PROCEDURE

The Architectural Committee will review and respond to all plans submitted within 45 (forty-five) days from the date all materials requested by the committee are received. Homeowners shall present plans, specifications, including, but not limited to floor plans, site plans, drainage plans, elevation drawings and description or samples of exterior materials and colors (hereinafter referred to as "plans") of any addition or alteration along with the Architectural Request Form to the Architectural Committee for study and approval. All plans shall be prepared in accordance with requirements for clarity and completeness consistent with the requirements of the County of Ventura Building Department. **PLEASE NOTE THAT NO WORK MAY BEGIN PRIOR TO ARCHITECTURAL APPROVAL.**

This review is in no way intended to approve the proposed improvement for structural engineering or in lieu of any required County permit or County inspections. The intent is to maintain the visual unity of Shadow Oaks. Any approved improvements are to be constructed on the applicant's unit only. Approval of proposed improvements does not constitute nor should approval be understood or taken as: a warranty or guarantee of any kind; as permission to violate any law; as permission to violate any provision of the CC&Rs, Bylaws, or Rules and Regulations of Shadow Oaks; as permission to build upon property not owned by the applicant; or as permission to violate or interfere with any easement on or across the Association's common area or lot(s).

REQUIRED COPIES

Present three copies of the completed Architectural Request Form drawings, specifications and specific color scheme to the Architectural Committee. The Committee shall retain one copy, one copy will be maintained with Association records, and one copy shall be returned to the owner with status review.

DRAWINGS

In addition to the requirements and specification set forth previously and herein, all drawings must be sufficient size and detail to allow the Architectural Committee to adequately review and understand the proposed improvements:

- Show residential unit lines accurately as to length, angles, and curves;

- Show all dimensions of work to be considered, such as distances between existing improvements and property lines;

- Drawings shall, in any case, show the nature, kind, shape, dimensions, materials, and location of the proposed improvements.

GENERAL NOTES

Include a detailed list of all materials to be used including color samples of all paint or stain when they deviate from the original color scheme assigned to the existing dwelling. When construction work requires the use of adjoining property, the applicant shall obtain written permission from the adjoining property owner. Copies of this letter shall be filed with the request for architectural approval.

All work must be performed in a manner consistent with the standards of general dwelling construction. All work considered being of an unsightly finished nature or of lesser quality than the prevailing community standards, shall be reworked to an acceptable appearance.

Each homeowner is responsible for the clean up of all construction debris as well as for any damage to any common areas.

Owners are responsible for restoring damaged common area to its original condition.

NEIGHBOR NOTIFICATION

It is the intent of the Architectural Committee to have input from the applicant's neighbors on any improvement, which may impact that neighbor's use and enjoyment of their unit. Neighbor approval or disapproval of a particular improvement shall be advisory and shall not be binding in any way on the Architectural Committee's decision.

The Architectural Committee may disapprove plans for construction, alteration or modification despite the approval of Facing, Adjacent and impacted Neighbors based upon the overall detriment which would result to the immediate vicinity and the Property generally.

Definitions: Facing Neighbor, Adjacent Neighbor, Impacted Neighbor and improvements requiring notification.

Facing Neighbor: the three (3) units most directly across from the unit

Adjacent Neighbor: all units adjoining the unit in question

Impacted Neighbor: all units in the immediate surrounding areas that would be affected by the construction of any improvement

Improvements Requiring Notification: any exterior improvements that may impact the neighbors in the community.

Neighbor notification must be provided to the Architectural Committee to verify that neighbors have been notified about the proposed improvements.

NOTICE OF COMPLETION

Upon completion of any work for which approval has been given, the owner shall submit written notice of completion to the Committee. Within sixty (60) days thereafter, a representative of the Committee may inspect such improvements. If the

committee finds that such work was not done in substantial compliance with the approved plans, it shall notify the owner in writing of such noncompliance within a 60 day period following the receipt of Written Notice of Completion and require the owner to correct the matter.

If upon the expiration of the 60 days from the date of notification the owner has failed to remedy the noncompliance, the committee shall notify the Board of Directors of the Association in writing of such failure. After affording such owner notice and hearing, the Board shall determine whether there is a noncompliance of Article IV of the CC&Rs and, if so, the nature thereof and the estimated cost of correcting or removing the same. If a noncompliance exists, the owner shall remedy or remove the same, within a period of not more than forty-five (45) days from the date announcement of the Board ruling. Should the owner fail to remedy same within such period, the Board may levy a Special Assessment against Owner for the costs of removing or remedying such noncompliance.

All construction, alteration or other work shall be performed promptly and diligently as possible and shall be completed within sixty (60) days after the date on which the work was commenced.

The Committee may authorize variances from compliance with any architectural provisions contained in the CC&Rs including, without limitation, restrictions upon height, size, floor area or placement of structures, or similar restrictions when circumstances such as topography, natural obstructions, hardship, aesthetic or environmental consideration may require such variances. The granting of a variance must be evidenced in writing, must be signed by at least a majority of the members of the Committee, and shall become effective upon recordation in the office of the Ventura County Recorder. The Board must approve any variance recommended by the Committee before any such variance shall become effective.

DRAINAGE

No owner shall make modifications to the existing drainage patterns on patios and decks.

APPLICATION FEES

The committee may require additional fees to cover the cost of hiring an architect or as needed to hire consultant(s) to evaluate any proposed modifications.
